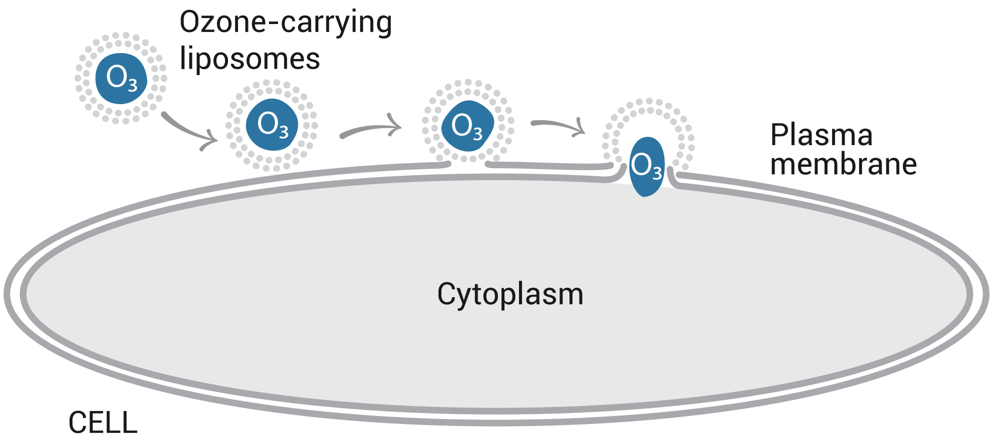
THE EXPERIENCE LIPOSOMAL OZONE

DR.US' patented method combines ozone with advanced liposomal technology helping you experience a visible transformation in your skin.

ENCE
OSOM
NE

THE WHAT IS LIPOSOMAL OZONE

DR.US' patented production method combines ozone and advanced liposometechnology for the first time in the world. This technology, which binds ozoneto fat lipids, has reduced the size of fat particles to between 30-200nm,making them much smaller than cell size and absorbable even for topical use.



Ozone is now ***easier and more effective***

EASIER
Ready to use in bottles. No ozone generator needed.

STABLE DOSES
Much stable dose per unit than gaseous ozone.

MORE EFFECTIVE WITH SLOW AND LONG RELEASE
While ozone loses its effect in 20-30 minutes in gaseous form, liposomal ozone is more effective with a slow and long release time of up to 72 hours.

229%

increase in hair follicles

DR.US Liposomal Ozone has been proven to increase the hair follicle ratio by 229% in experiments, and to increase the number of capillaries and connective tissue.

LIPOSOMAL EFFECT COCKTAIL SERIES

REJUVA

Liposomal Ozone Cocktail

5 x 8 ml vials

ANTI AGING EFFECT

Liposomal Ozone + Amino Acid Complex + Mineral Complex + Panthetonic Acid

Ozone liposomes strengthen the skin barrier with antioxidant effects. Amino acids support repair, while the mineral complex replenishes essential elements and boosts enzyme activity. D-panthenol hydrates and promotes collagen synthesis for an anti-aging effect.

REVITA

Liposomal Ozone Cocktail

5 x 8 ml vials

VITAMIN SUPPORT

Liposomal Ozone + Vitamin Complex + Tranexamic Acid + Acetylcysteine

Ozone liposomes revitalize the skin with powerful antioxidants, strengthening its barrier for a radiant glow. Cysteine enhances elasticity and collagen production, while D-panthenol delivers deep hydration and anti-aging care. B-complex vitamins energize the skin, and tranexamic acid prevents discoloration for a flawless, even tone.

BASE

Liposomal Ozone Cocktail

5 x 8 ml vials

ANTIOXIDANT EFFECT

Liposomal Ozone + Acetylcysteine

Ozone liposomes provide antioxidant effect to the skin. It strengthens the skin's barrier and makes it look more vibrant. It contains a thiol group with sulfur in the cysteine side chain and supports skin elasticity and texture. It is a very important amino acid for collagen production.

ANTI SPOT

Liposomal Ozone Cocktail

5 x 8 ml vials

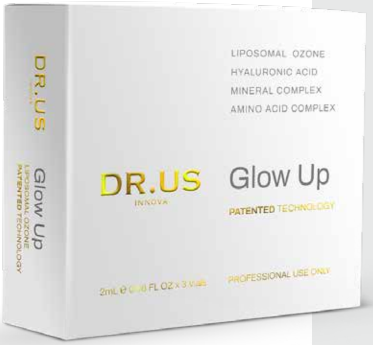
SPOT TREATMENT

Liposomal Ozone + Pyruvic Acid + Acetylcysteine +Glutathione + Tranexamic Acid

Ozone liposomes strengthen the skin barrier with antioxidant effects. Cysteine boosts elasticity and collagen production. Glutathione brightens and detoxifies. Tranexamic acid prevents pigmentation, while pyruvic acid fades dark spots for an even skin tone.

GLOW UP

Liposomal Ozone Cocktail



3 x 2 ml vials

REVITALIZING EFFECT

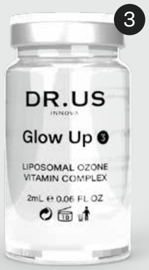
TRIPLE COMPLEX

Hyaluronic Acid + Mannitol

It contains hyaluronic acid and mannitol to moisturize the skin and increase its elasticity.

Amino Acid Complex + Mineral Complex

Amino acids, mineral complex and D-panthenol support the skin, moisturize and provide an anti-aging effect.



Liposomal Ozone + Vitamin Complex

It provides antioxidant effect with ozone liposomes andcysteine, strengthens the skin barrier and delays aging.

LIPOSOMAL EFFECT SKINCARE SERIES

REJUVA FACE CREAM

Dr.Us Rejuva Face Cream delivers deep hydration, soothes, and combats signs of aging—ideal for dry, chapped skin. Macadamia oil locks in lasting moisture, while rose oil restores and calms with powerful antioxidants. Ozone liposomes, amino acids, and minerals revitalize and strengthen for a radiant, youthful glow.

HOW TO USE Clean your face with a suitable cleanser. Apply to your entire face and neck area, massaging gently in a circular motion from bottom to top. After application, avoid contact with water to allow your skin to absorb.

ACTIVE INGREDIENTS Liposomal ozone, Macadamia Ternifolia Seed Oil, Chamomilla Recutita oil, Rosa Damascena Flower Oil, Aminoacids & Mineral complex

EYE CREAM

Dr.Us Rejuva Eye Cream hydrates, smooths wrinkles, and refines pores for a refreshed look. Avocado oil deeply nourishes, while rosehip oil firms and brightens. Ozone oil delivers antioxidant protection, and menaquinone targets under-eye discoloration. Amino acids and minerals support skin repair for a youthful, radiant gaze.

HOW TO USE Gently cleanse the under-eye area. Then gently pat a small amount of cream into the delicate skin around the eyes. Massage gently until the product is completely absorbed. Avoid contact with water after application.

ACTIVE INGREDIENTS Liposomal ozone, Persea Gratissima (Avocado) Oil, Rosa Rubiginosa Seed Oil, Rosa Damascena Flower Oil Menaquinone-7, Aminoacids & Mineral Complex

ACNE&SPOT SERUM

Dr.Us Acne & Spot Serum is a skin care serum specially formulated to help your skin gain a vibrant, smooth and natural appearance against blemishes and acne on the skin. It provides antioxidant effect with Glutathione, Niacinamide and Acetyl Salicylic Acid, which support the smoothness and protection of the skin appearance against inhomogeneous skin color and hyperpigmentation. Ozone liposomes with antioxidant effect help protect the skin against free radicals. Pantothenic acid strengthens the skin barrier and helps protect it from external factors.

HOW TO USE Clean the area where the product will be applied with a suitable cleanser. Apply the productto the entire face and neck area, excluding the eye area, by massaging in a circular motionfrom bottom to top. Avoid contact with water for a while.

ACTIVE INGREDIENTS Liposomal ozone, Niacinamide, Glutathione, Salicylic Acidat

REJUVA SERUM

Dr.Us Rejuva Serum deeply hydrates, nourishes, and fights signs of aging while soothing irritation. Pantothenic acid strengthens the skin barrier, while proline, serine, and threonine enhance its natural defense. Mineral complex boosts collagen for a smoother look, and ozone liposomes protect against free radicals for a radiant, youthful glow.

HOW TO USE Clean the area where the product will be applied with a suitable cleanser. Apply the product to the entire face and neck area, excluding the eye area, by massaging in a circular motion from bottom to top. Avoid contact with water for awhile.

ACTIVE INGREDIENTS Liposomal ozone, Panthotenic Acid, Aminoacids & Mineral Complex, HyaluronicAcid

ANTI SELULITE CREAM

Dr.Us Anti Cellulite Cream helps reduce the appearance of cellulite by moisturizing and nourishing the skin. It helps burn fat by increasing blood circulation and circulation under the skin.

HOW TO USE Apply to cellulite and cracked areas by massaging with circular movements. It is used once a day in areas prone to cellulite. With regular use, it helps prevent the formation of stretch marks and reduce the appearance of cellulite.

ACTIVE INGREDIENTS Liposomal ozone, Citrus Aurantium Dulcis (Orange) Peel Oil, Rosmarinus Officinalis Leaf Oil, Lavandula Officinalis Flower Oil, Lavender Oil

PURE OZONE OIL CREAM

Dr.Us Pure Ozone Oil Cream helps protect the skin against free radicals and helps skin regeneration. The skin feels soft, supple and deeply moisturized.

HOW TO USE Clean the area where the product will be applied with a suitable cleanser. Apply pure ozone oil cream by massaging your skin in circular motions until it is completely absorbed. Do not contact the applied area with water for a while.

ACTIVE INGREDIENTS Aqua, Ozonized sunflower seed oil, Glycerin, PEG 400

PURE OZONE OIL GEL

Dr.Us Pure Ozone Oil Gel helps protect the skin against free radicals and helps skin regeneration.

HOW TO USE Clean the area where the product will be applied with a suitable cleanser. Apply pure ozone oil gel by massaging your skin in circular motions until it is completely absorbed. Do not contact the applied area with water for a while.

ACTIVE INGREDIENTS Ozonized sunflower seed oil

LIPOSOMAL EFFECT HAIRCARE SERIES

HAIR GROWTH

Liposomal Ozone Cocktail

5 x 8 ml vials

ANTI HAIR LOSS EFFECT

Liposomal Ozone + Vitamin Complex + Acetylcysteine + Biotin

Ozone liposomes provide an antioxidant boost to the hair, strengthening the scalp barrier and enhancing vibrancy. Rich in cysteine, it supports skin elasticity and collagen production, offering anti-aging benefits. With D-panthenol, it hydrates the skin and fights signs of aging. Packed with B vitamins and biotin, it nourishes the skin and strengthens hair follicles, promoting healthy, shiny hair and preventing dullness.

at home

ANTI HAIR LOSS SPRAY

Dr.Us Anti Hair Loss Spray strengthens hair, prevents shedding, and revitalizes follicles with biotin. Amino acids and minerals nourish,while pantothenic acid protects the scalp. Ozone liposomes defend against free radicals for healthier, stronger hair.

HOW TO USE Apply 10 to 25 sprays to different areas of the entire dry or damp scalp. Gently massage the scalp in a circular motion. Use daily for 2 months and replenish as needed throughout the year. Do not rinse.

ACTIVE INGREDIENTS Liposomal Ozone, Panthothenic Acid, Biotin

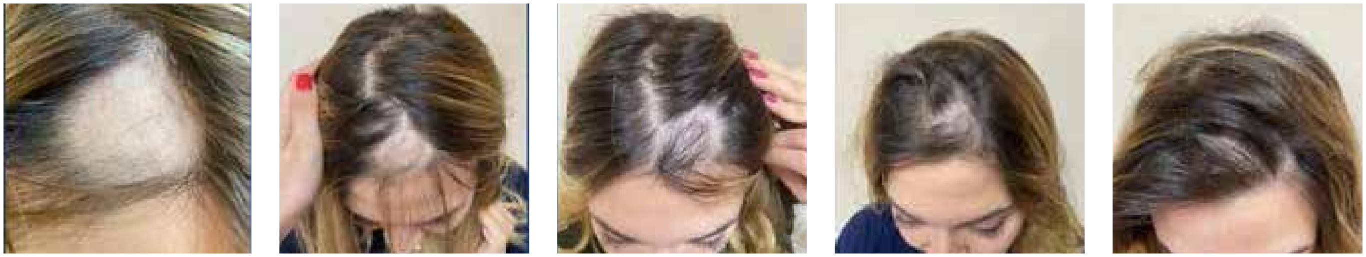
*5 sessions after hair transplantation of **Hair Growth Liposomal Ozone Cocktail** at 2-week intervals (androjenik alopesi)

*4 sessions of **Hair Growth Liposomal Ozone Cocktail + PRP** at 2-week intervals (androjenik alopesi)

RESULTS

*8 sessions of **Hair Growth Liposomal Ozone Cocktail** at 2-week intervals (right side) (alopesi areata)

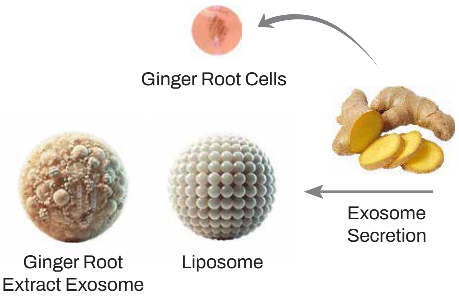


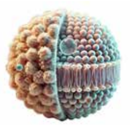
*8 sessions of **Hair Growth Liposomal Ozone Cocktail** at 2-week intervals (front side) (alopesi areata)

EXO-ZONE SERIES

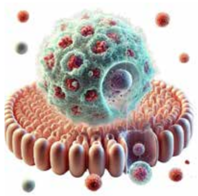
Plant-Derived Exosomes
Ginger Root Extract

Advanced Skin & Hair Renewal with Plant-Derived Exosomes





Liposomal Exosome



Powerful formulations developed with bioactive exosomes, antioxidants, and amino acids for visible regeneration, protection, and radiance.

Targeted Regeneration Begins at the Cellular Level

Exosomes are nano-sized vesicles that enable intercellular communication, carrying vital growth factors, RNA, and proteins directly into cells. Liposomes are intelligent carriers that encapsulate active ingredients and deliver them deeper into the skin barrier. The fusion of these two systems allows for targeted, deep regeneration and enhanced ingredient delivery.

Range of Treatments

ANTI AGING

Smooths wrinkles and finelines. Enhance collagen production, improving skin elasticity.

SKIN REGENERATION

Accelerates healing & revitalizes skin. Strenghens the skin's natural defeneses.

BRIGHTENNING

Evens skin tone and reduces melanin levels for a visibly lighter, more even complesion.

ANTI INFLAMATORY

Calms and soothes irritated skin. Inflamed skin diseases: Dermatits, Psoriasis, Rosacea.

HEALTHY SCALP&HAIR

Offers anti-inflammatory caredor a weakened scalp, promoting hair regeneration and growth.

EXO-ZONE FACE

Regenerate – Protect – Brighten

Plant-based exosomes improve skin cell communication. Boosts collagen synthesis and smoothens skin texture. Glutathione fights free radicals and brightens the skin. Amino acids strengthen the natural skin barrier. Pantothenic acid reduces fine lines and wrinkles.

EXO-ZONE HAIR

Revitalize – Strengthen – Stimulate

Exosomes promote follicle regeneration. Amino acids and minerals strengthen hair. Biotin supports healthy hair growth. Pantothenic acid protects scalp barrier.

DUAL ACTION
Regenerates & Lift

EXO-ZONE CREAM

Formulated with plant-derived exosomes and enriched with a powerful blend ofantioxidants, peptides, and botanical extracts

Glutathione, Tranexamic Acid, Rosa Rubiginosa (Rosehip) Seed Oil, Arbutin, Acetyl Hexapeptide-8, Hydrolyzed Hibiscus Extract + Dextrin, Ginger Root Extract.

BOOSTER SERUM

Activate Your Blood

Personalized skincare derived from your own blood, enriched with advanced ozone activation for powerful skin regeneration.

PRP ENHANCED WITH NEW PATENTED LIPOSOMAL OZONE ACTIVATION

Unlock the full potential of platelet-rich plasma for visibly revitalized skin.

DR.US Booster Serum – PRP + Ozone Activation for Enhanced Cellular Regeneration

A next-generation serum developed for dermatological and aesthetic support. Blood collected from the patient is processed to extract platelet-rich plasma.

The plasma is then combined with Dr.Us PRP Booster Serum to enhance the bioavailability of growth factors. This unique combination improves tissue regeneration and supports post-treatment recovery

Autologous & biocompatible – derived from patient's own blood	Ozone-activated platelets – maximized growth factor release
Designed for post-treatment recovery and maintenance	Dermatologically safe for at-home application

STEP1 Draw blood from the patient.

STEP2 Isolate PRP via centrifugation.

STEP3 Activate PRP by mixing with DR.US Booster Serum.

STEP4 Prepare serum with well shake for patient use.

STEP5 Before use shake it then apply daily at home on clean skin.

*Each 30 ml bottle contains 20 ml of DR.US Booster Serum. The remaining 10 ml space is reserved for the patient's PRP to be added after preparation.

DR.US PRP Tubes

Diversify your treatment with DR.US platelet-rich plasma. DR.US PRP offers you the opportunity to combine with DR.US Liposomal Ozone Proffesional Line or alone with its high platelet recovery rate and purity.

It can also be used with the Booster Serum to enhance activation of Growth Factors. Booster Serum and DR.US Platelet Rich plasma provide your patients unique Self Treatment cream. DR.US PRP has 2 unique models. Separator Gel Sodium Citrate PRP tubes and Sodium Citrate PRP tubes.
